

Global Remote Sensing Technology Market Is Projected To Grow At A 3.4% Rate Through The Forecast Period

The Business Research Company's global market reports are now updated with the latest market sizing information for the year 2023 and forecasted to 2032

LONDON, GREATER LONDON, UK, August 30, 2023 /EINPresswire.com/ --The Business Research Company's "Remote Sensing Technology Global Market Report 2023" is a

comprehensive source of information that covers every facet of the market. As per TBRC's market forecast, the remote sensing technology market size is predicted to reach \$184.7 billion in 2027 at a CAGR of 3.4%.

The growth in the remote sensing technology market is due to the increasing requirement for simplifying business operating models and IT investment monitoring. North America region is expected to hold the largest remote sensing technology market share. Major players in the remote sensing technology market include Fujitsu Ltd., HCL Technologies Limited, Booz & Co., Infosys Limited, Dell Technologies Inc., KPMG, IBM Corporation.

Remote Sensing Technology Market Segments

- By Service: Application development, Cloud Services, Cybersecurity and Privacy, Data and Analytics, Technology Strategy and Enterprise Architechture, Other Services
- By End Use: Banking, Financial Services, Healthcare, IT & telecom, Government, Other End Uses
- By Enterprise Size: Large Enterprise, Small and Medium Enterprise
- By Geography: The global remote sensing technology market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.
