

Highlights from Construction Links Network - August 31, 2023

Peer-to-peer content sharing platform for the construction, building and design community

SUNDRE, ALBERTA, CANADA, August 31, 2023 /EINPresswire.com/ -- Construction Links Network is a unique news platform where members "Get More Eyes" on their digital content and increasing their SEO.

The network includes thousands of Canadian construction managers, contractors, developers, building managers, property managers, architects, designers, engineers, government officials and more.

Members use this platform to share and onboard their digital content on the Internet, through social media and our popular Round Up News Magazine. Ideal for product / service releases, company announcements, blogs, podcasts, webinars, case studies, whitepapers, videos and more.

Welcome to this edition of the Round Up News Magazine published by Construction Links Network.

Top videos this week include engineers at RMIT University in Australia who have found a way of making stronger concrete with roasted used-coffee grounds. Lead author Dr Rajeev Roychand said the team developed a technique to make concrete 30% stronger by turning waste coffee grounds into biochar, using a low-energy process without oxygen at 350 degrees Celsius.

The second top video is courtesy of Gordie Howe International Bridge as they feature the dogs working on the project. Learn about the important role they play in protecting wildlife on site.

Content shares from members this week include:

- [Magil Construction selected as a finalist for the 2023 Groundbreaker Awards](#)
- Geo Week 2024 Announces over 150 Supporting Organizations and Media Partners
- How Can Your Municipality Protect People from Fall Hazards?
- Unveiling the Future: Alternative Power Trends at The Utility Expo
- Amexon's Residences at Central Park Receives Five Ontario Homebuilders Association Nominations
- Give them chances to win
