“

We're excited to bring viewers to some of the most unique haunted attractions worldwide; We have a real balance of theme park, independent, and home haunts this year.”

Philip Hernandez

Hauntathon will explore some of the world's best and most mysterious haunted attractions, from the classic to the cutting-edge.

Haunters, those people who create haunted attractions, work year-round to hone their craft. However, few guests get to see more than a handful. In this year's Hauntathon, viewers discover the creative process behind some of the world's most famous haunted attractions.

“We're excited to bring viewers to some of the most unique and creative haunted attractions in the world,” said Haunted Attraction Network founder Philip Hernandez, “We have a real balance of theme park, independent, and home haunts this year.”

This year's title sponsor is Gantom Lighting & Controls, which makes miniature spotlights for the world's largest theme parks. “We started manufacturing for haunted houses, and I even started

the first Haunted House in Mainland China,” said Gantom founder, Quan Gan, “We’re thrilled to be able to help the haunted house community by bringing viewers to haunts they may not be aware of.”
