

Global VHF Air Ground Communication Stations Market Is Projected To Grow At A 11.5% Rate Through The Forecast Period

The Business Research Company's global market reports are now updated with the latest market sizing information for the year 2023 and forecasted to 2032

LONDON, GREATER LONDON, UK,
August 31, 2023 /EINPresswire.com/ --
The Business Research Company's
"VHF Air Ground Communication
Stations Global Market Report 2023" is

a comprehensive source of information that covers every facet of the market. As per TBRC's market forecast, [the VHF air ground communication stations market size](#) is predicted to reach \$2.20 billion in 2027 at a CAGR of 11.5%.

The [growth in the VHF air ground communication stations market](#) is due to the growing air traffic. North America region is expected to hold the largest VHF air ground communication stations market share. Major players in the VHF air ground communication stations market include Northrop Grumman Corporation, Rockwell Collins, Raytheon Technologies Corporation, Becker Avionics GmbH, Viasat Inc.

VHF Air Ground Communication Stations Market Segments

- By Type: Desktop Air-Ground Communication Stations, Portable Air-Ground Communication Stations
- By Airport Category: Commercial Service Airports, Cargo Service Airports, Reliever Airports, General Aviation Airports
- By Application: Air Traffic Control System, Civil Aviation Air-Ground Communication, Military Aviation Communication, Other Applications
- By Geography: The global VHF air ground communication stations market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

VHF Air Ground Communication Stations Global
Market Report 2023

VHF air-ground communication stations refer to the radio telephony systems used for voice and audio communication between an aircraft and the ground. These systems use very high-frequency (VHF) radio waves and are one of the traditional methods of air-ground communication. VHF is a portion of the radio spectrum that ranges from 30-300 MHz.
