

# InverXion Vodka and Stowloch “Ozark Highlands” Whiskey Available in New York State

*Stone Ledge Spirits Company has expanded to New York State with their InverXion Vodka and Stowloch Whiskey.*

DEFIANCE, MISSOURI, UNITED STATES, August 31, 2023 /EINPresswire.com/ -- “[InverXion Vodka](#) is a premium, 8-times distilled vodka and [Stowloch Whiskey](#) is one of the first Ozark Highlands whiskies to be released,” Mark Sutherland, CEO of Stone Ledge Spirits Company, said. “We are thrilled that both spirits are available to retailers and restaurants across the state via our distributor LibDib.”

InverXion Vodka is a 100-percent sweetcorn vodka, handcrafted in Missouri’s Ozark Highlands using all-natural, limestone-filtered water. InverXion utilizes long-fermentation for smoothness and is distilled 8-times in hand-forged Missouri copper stills and then finished using vacuum inverted distillation. InverXion is proofed down using the same limestone-filtered mineral water giving it a unique character that captures the essence of Missouri’s Ozark Highlands.

“InverXion Vodka is not only a high-quality premium vodka, but it is also a brand that embraces

Stowloch Whiskey uses only limestone filtered water from the Ozark Highlands

Stowloch Whiskey is mashed, fermented, distilled, aged and bottled in the Ozark Highlands region, aged at least 4 years in made-in-Missouri barrels, and uses natural or untreated water that does not contain chlorine or

adventure and the outdoors,” Sutherland said. “It is designed for those who believe that adventure favors the bold, and our name is a tribute to our distilling process, and to the adventurers and innovators who redefine what is possible and push the edge in everything they do.”

“The recipe for Stowloch Whiskey is actually a recipe brought to America in 1761,” Sutherland said. “Our process uses only heirloom, non-GMO grain and long fermentation and we are committed to quality and sustainability from ground to glass. You will find that commitment in every bottle of Stowloch.”
