The sewing machine refer to a machine used to stitch fabric and other materials together with thread. Sewing machine is used to improve the fineness and appearance of fabrics. They are mainly used to produce garments, textiles, and other fabrics. Sewing machines offered in a variety of plain or patterned stitches. They include means for gripping, supporting, and conveying the fabric past the sewing needle to form the stitch pattern. Most home sewing machines and many industrial machines use a two-thread stitch called the lockstitch. In the textile industry, two types of sewing machines are used - manual swing machines and electric sewing machines.
