

TMSaero Obtains FAA 145 Certified Repair Station Certificate

Boca Raton based TMSaero Obtains FAA 145 Certified Repair Station Certificate

BOCA RATON, FL, USA, September 1, 2023

/EINPresswire.com/ -- Today, [TMSaero](#) announced that they have obtained their FAA 145 Certified Repair Station Certificate. This approval will further expand its capability to provide field services and in-house maintenance repairs & inspections for most commercial aircraft engine and airframe types. These include GE, CFMI, IAE, Rolls Royce and Pratt & Whitney engines and Boeing, Airbus, Bombardier, and Embraer aircraft.

TMSaero will now include and offer engine borescope inspection, bore-blending MPA runs, engine changes, QEC installation and removal, preservation, top case repairs, lease return inspections, and more. This approval will enhance the support they can offer to their customers and provide much needed convenience for operators.

“

TMSAero has answered the call of our valued clients including OEM's, MRO's, Leasing Companies, and Airlines”

TMSAero CEO, Konrad Walter

“TMSaero has answered the call of our valued clients including OEM's, MRO's, Leasing Companies, and Airlines,” said TMSaero CEO, Konrad Walter.

Our dedicated turbine and aircraft engineering team provides timely, cost-saving solutions, to aircraft and turbine engine operators worldwide. TMSaero is led by highly experienced and mature professionals who know aircraft and engines. Our capabilities and services range
