

iRemedy Healthcare Companies Donate Millions of Needles and Syringes to Aid Global Health Initiatives

STUART, FLORIDA, UNITED STATES, September 3, 2023 /EINPresswire.com/ -- iRemedy Healthcare Companies, Inc. ("iRemedy" or "the Company") has donated over 20 million needles and close to 3 million syringes, an act set to significantly amplify healthcare initiatives across the world.

On Friday, August 18th, the alliance of [World Vision](#), [Cross Catholic Organization](#), and [Unto](#) Logistics Center embarked on the initial phase of this donation — collecting three truckloads, which total 90 pallets, from iRemedy's establishment.

The prime consignment to World Vision incorporated 16,720,000 needles and 662,400 syringes. These crucial supplies will empower underserved populations across multiple regions.

Furthermore, this week saw iRemedy dispatch another shipment to the Unto Logistics Center and Cross Catholic Organization, contributing an additional 3,770,000 needles and 1,951,000 syringes. Further plans are being cemented for ensuing shipments, primarily concentrating on direct aid to Somalia and Mauritania via World Vision.

“By facilitating these substantial donations, we're furthering our mission of improving global healthcare access,” stated Tony Paquin, CEO of iRemedy. “We're proud to collaborate with these renowned organizations, ensuring that these vital medical supplies reach the communities that need them most.”

Jennifer Hawley, Sr. Director, Corporate Engagement, remarked, “The donation of syringes and needles from iRemedy could not have come at a better time! These medical resources will be distributed by World Vision and our dedicated partners, Cross Catholic Outreach and UNTO, in a number of developing countries where each supports health system strengthening. Two of these countries, Mauritania and Somalia, will receive full containers of the syringes and needles from World Vision to support current health needs. In Mauritania, the donation will be used in expanded vaccination programs across the country. And in Somalia, World Vision is working with the government to launch a tuberculosis vaccination program which will be resourced by the iRemedy donation. Vaccination programs are key to poverty alleviation and keeping the communities we serve healthy. World Vision is grateful to the iRemedy leadership for their generosity and for the dedication their staff which has made this possible.”

These humanitarian organizations are unwavering in their quest to address the multifaceted needs of fragile communities. Additional insights into their missions and endeavors can be sought from their respective online portals: World Vision, Cross Catholic Outreach, and Unto.

About The iRemedy Healthcare Companies

iRemedy is the go-to source for medical supplies, serving a vast network of over 15,000 healthcare provider clients nationwide. The company prides itself on its dedication to service and quality, constantly striving to meet the pressing needs of healthcare institutions across the globe.
