

Renowned UK Pediatric Gastroenterologist Professor Neil Shah Joins Beneufit to Pioneer Digital Biomarker Development

SAN FRANCISCO, CALIFORNIA, UNITED STATES, September 5, 2023

[/EINPresswire.com/](https://EINPresswire.com/) -- Beneufit, Inc., a pioneering digital health company at the forefront of innovative healthcare solutions, is proud to announce the appointment of Professor Neil Shah, a leading UK pediatric gastroenterologist, to its distinguished team. Professor Shah's expertise and groundbreaking work in pediatric gastroenterology will play a pivotal role in advancing the development of cutting-edge digital biomarkers aimed at transforming the healthcare industry.

Professor Shah will be leading the effort to develop digital biomarkers for pediatric gastroenterology.

Professor Shah brings a wealth of experience and an exceptional reputation to Beneufit, Inc. With his extensive background in pediatric gastroenterology and a strong commitment to pushing the boundaries of medical research, he is poised to contribute significantly to the company's mission of revolutionizing healthcare through digital innovation.

“

We are delighted to welcome Professor Neil Shah to our team. His deep expertise in pediatric gastroenterology and his commitment to advancing healthcare align perfectly with our mission at Beneufit.”

Jeff Broderick

As an internationally recognized expert in the field, Professor Shah's involvement with Beneufit, Inc. signifies a significant step towards harnessing the power of digital technologies to enhance patient care and diagnostics. His collaboration with the company's exceptional team of experts is expected to result in the creation of advanced digital biomarkers that have the potential to redefine how medical professionals diagnose and manage gastrointestinal conditions in children.

"We are thrilled to welcome Professor Neil Shah to the Beneufit family. His groundbreaking work

in pediatric gastroenterology aligns perfectly with our vision of utilizing digital health solutions to make a tangible impact on patient outcomes," said Jeff Broderick, CEO at Beneufit, Inc. "With Professor Shah's guidance and expertise, we are confident that our efforts will lead to the development of innovative digital biomarkers that will drive advancements in healthcare and transform the way we approach pediatric gastrointestinal care."

In his new role at Beneufit, Inc., Professor Shah will contribute his wealth of knowledge to research and develop digital biomarkers that have the potential to revolutionize patient care, early diagnosis, and treatment in pediatric gastroenterology. His involvement underscores the company's commitment to collaborating with visionary experts who share the mission of positively impacting healthcare delivery.

About Beneufit, Inc.:

Beneufit, Inc. is a forward-thinking digital health company dedicated to harnessing the power of technology to advance healthcare. Through the development of innovative digital biomarkers and cutting-edge solutions, Beneufit aims to transform patient care, diagnostics, and treatment across various medical fields. The company's commitment to pushing the boundaries of medical innovation underscores its vision to create a healthier world.
