

iPOS Systems Now Offers Merchants Tap to Pay on iPhone

Tap to Pay on iPhone is an easy, secure, and private way to accept contactless payments with only an iPhone. No additional hardware is needed.

MINEOLA, NEW YORK, UNITED STATES, September 6, 2023 /EINPresswire.com/ -- [iPOS Systems](#), a leading international payment solution provider, today announced its enablement of Tap to Pay on iPhone, allowing its U.S. merchants to accept in-person contactless payments anywhere in-store or on the go using only their iPhone.

Tap to Pay on iPhone accepts all forms of contactless payments, including contactless credit and debit cards, Apple Pay, and other digital wallets using only an iPhone and the iPOSgo! iOS app – no additional hardware or payment terminal needed.

"As a point-of-sale technology company, we consider it a privilege and an opportunity to utilize Apple's technology," said Mony Zenou, Founder and CEO of iPOS Systems / [Dejavoo](#) "Tap to Pay on iPhone is not just a solution for home businesses with low-cost and low-volume needs, it's a versatile tool that enables merchants of all types and sizes to expand their payment acceptance abilities throughout their entire business."

At checkout, the merchant will simply prompt the customer to hold their iPhone or Apple Watch to pay with Apple Pay, their contactless credit or debit card, or other digital wallets near the merchant's iPhone, and the payment will be securely completed using NFC technology. Tap to Pay on iPhone uses the built-in features of the iPhone to keep the data of merchants and their customers private and secure. When a payment is processed, Apple doesn't store card numbers on the device or on Apple servers.

Tap to Pay on iPhone enables iPOS Systems' customers to use a payment solution that is easy to set up and use. Merchants can unlock contactless payment acceptance within minutes through

For thirty years, iPOS Systems and Dejavoo have worked with ISOs, ISVs and Resellers to provide merchants of all types and sizes with innovative payment solutions to help them grow their sales and increase revenue.

Tap to Pay on iPhone is not just a solution for home businesses with low-cost and low-volume needs, it's a versatile tool that enables merchants of all types and sizes to expand payment acceptance."
