The reduced construction cost, ease of installation and relocation, increase in focus toward adoption of green building concepts, rise in need for protection of architecture from environmental impacts, and need for compact & movable homes in large cities due to lack of space, are major factors that boost the demand for container homes. Furthermore, lack of housing units, increase in focus toward adoption of affordable housing structures, and rise in need for construction in developed companies are expected to provide lucrative growth opportunities to prefabricated container homes manufacturers. However, high risk on corrosion to these homes and short life space are expected to hinder the market growth.

Top Players:

The major players, such as Anderco Pte Ltd., Container Homes USA, Giant Containers, HONOMOBO, Royal Wolf., SG Blocks, Inc., Shanghai Haicheng Special Steel Container Co., Ltd., Speed House Group of Companies, Supertech Industries, and Temohousing, focus on

strengthening their business capabilities in the market.
