THE STEINBERG LAW GROUP

The Steinberg Law Group has decades of proven experience and the resources to help victims of asbestos exposure and their families obtain the financial compensation they deserve. All of it.

Our Mesothelioma Options Help Centers have a network of top doctors and surgeons from coast to coast.

plant workers, maritime workers, industrial workers, plumbers, pipefitters, electricians, mechanics, machinists, miners, railroad workers and construction workers, to name a few. Since the latency period for mesothelioma patients is from 10 to 50 years, most people diagnosed with mesothelioma or asbestos-related lung cancer in 2023 were exposed decades ago.

California is home to some of the largest naturally-occurring asbestos deposits in the world. For much of the 20th century, mining operations took place throughout the state at or adjacent to asbestos deposits, which helps explain why California has the most asbestos-related deaths in the United States. California's large military presence has also drastically increased the number of Californians who were exposed to asbestos over the course of their lives.
