

# BizzTech Challenges Meta's Billion Dollar Metaverse

*A Bootstrapping Startup Competes with Meta's Billion Dollar Metaverse*

AUSTIN, TEXAS, UNITED STATES, September 6, 2023 /EINPresswire.com/ -- In the rapidly evolving metaverse landscape, BizzTech, a bootstrapped startup, is emerging as a formidable challenger to tech giant Meta. Drawing parallels to the legendary David and Goliath tale, BizzTech's innovative approach and relentless drive are setting new industry standards.

Founded by Dirk Schmidt, Rosi Vieira, and Jason Shuster, BizzTech's mission is to make virtual experiences as tangible and interactive as real-world ones. While Meta's billion-dollar investments have often dominated headlines, BizzTech's "Metaverse-as-a-Service" model is revolutionizing the way businesses transition into immersive 3D environments.

BizzTech's focus on real-world applications and genuine problem-solving sets them apart. Their groundbreaking technology mix enables a full multiplayer experience with photo-realistic environments in the browser for the first time. No downloads, without VR glasses and on any device with internet access.
