

Highlights from Construction Links Network - September 7, 2023

Peer-to-peer content sharing platform for the construction, building and design community

SUNDRE, ALBERTA, CANADA, September 7, 2023 /EINPresswire.com/ -- Construction Links Network is a unique news platform where members "Get More Eyes" on their digital content and increasing their SEO.

The network includes thousands of Canadian construction managers, contractors, developers, building managers, property managers, architects, designers, engineers, government officials and more.

Members use this platform to share and onboard their digital content including news releases, company announcements, blogs, podcasts, webinars, case studies, whitepapers, videos and more.

Top videos this week include a suicide awareness video by PCL Construction. Construction workers have a 65 percent higher suicide rate than workers in all other sectors, according to the U.S. Centers for Disease Control and Prevention. World Suicide Prevention Day is on September 10 this year. World Suicide Prevention Day is a chance for everyone to join the Canadian Association For Suicide Prevention in promoting the understanding about suicide: those impacted by a suicide attempt or loss, family and friends, charitable organizations, professionals, politicians, volunteers and community members.

In the second top video courtesy of Civil Mentors, Saudi Arabia is swiftly reshaping its landscape through pioneering initiatives, revolutionizing architecture, engineering, and sustainability. From towering skyscrapers to futuristic cities, the country's journey is extraordinary. Renowned for its vast deserts, Saudi Arabia is now aiming to create a river longer than the Nile, set to transform its terrain. The question arises: can this ambitious project succeed, or will it bring more harm than good?
