

BIOTERRAN names Eric Egnat as President and Chief Operating Officer

Forging a New Era of Innovation and Renewable Energy through Visionary Leadership

WROCLAW, POLAND, September 12, 2023 /EINPresswire.com/ -- BIOTERRAN, The Alchemy Green Energy Company, proudly announces the appointment of Eric Egnat as President and Chief Operating Officer. With a rich and diverse background in business, strategy, science, and technology spanning 26 years, Mr. Egnat brings invaluable expertise to BIOTERRAN, solidifying the company's leading position in the green renewable energy sector.

Adrian Perry, CEO of BIOTERRAN, expressed his enthusiasm for this strategic move, stating, "As BIOTERRAN

continues its mission to revolutionize green renewable energy solutions, we are thrilled to welcome Eric Egnat as our President and COO. Following a global search to identify the ideal executive, Eric's extensive experience, passion, and innovative mindset aligned perfectly with our vision and innovation to harness nature's potential and advance our commercial technology to produce high-grade, zero-carbon, and zero-waste green biofuels."

Eric Egnat, based in Boston, Massachusetts USA, is a proven global executive, business strategist, and visionary innovator with a track record of success across various sectors and industries. His unique blend of executive leadership, scientific intelligence, strategic thinking, and creative problem-solving positions him as an incredibly valuable addition to BIOTERRAN.

As the Founder and Managing Partner of Trendigm, a Strategic Equity Investment Firm, Mr. Egnat has consistently demonstrated his ability to transform and grow global companies and emerging

Eric Egnat, President and COO of BIOTERRAN

technology producers, positioning them as industry market leaders. His leadership roles have spanned diverse sectors, including healthcare, artificial intelligence, robotics, genomics, fintech, global expansion, metaverse, life sciences, wealth management, gold mining, outsourced procurement, personalized nutrition, and renewable energy.

Marcin Majda, CTO and Biotechnologist behind BIOTERRAN's disruptive innovation approach added, "In the world of renewable energy, true innovation doesn't just follow the trends; it sets them. With Eric Egné joining our team, we're not just setting the trends; we're redefining the future of renewable energy."

Eric's appointment as President and COO at BIOTERRAN marks a significant and strategic move to strengthen the company's leadership and accelerate our growth and its commitment to sustainability. His proven ability to innovate, develop, and execute competitive strategies, build high-performing teams, establish strong industry partnerships, and deliver exceptional operational results, combined with a visionary mindset, will play a critical role in BIOTERRAN's continued success.

Professor Andrzej Vogt, Ph.D., Head of Science and Technology Research, and the Inventor behind BIOTERRAN's intellectual property, at the esteemed University of Wrocław, emphasized the significance of Eric Egné's appointment. He stated, "In my role at this esteemed Research University, I wholeheartedly endorse Mr. Egné's appointment as President and Chief Operating Officer at BIOTERRAN. This is a profound decision that reimagines and aligns our company's leadership, my scientific team, and our global advisors with our expanding portfolio of next-generation green biofuel technologies. I have full confidence that Eric's visionary leadership, extensive experience, scientific understanding, and natural innate abilities will propel BIOTERRAN to even greater heights in renewable energy solutions."

Eric's career has been marked by a full and comprehensive range of exceptional executive accomplishments spanning all areas and aspects of companies. As a C-Level Officer, he has held critical roles in a wide spectrum of enterprises, including promising emerging startups, thriving mid-market firms, and reputable Fortune 500 corporations, across various industries, sectors, and countries.

"I am honored to have the opportunity to join BIOTERRAN at this pivotal moment," stated Eric Egné. "The company stands as a pioneering force in an entirely new realm and domain of renewable energy solutions, driven by its revolutionary Ethyl Ester Technology for Green Biodiesel production."

"BIOTERRAN's disruptive innovation, strong business and scientific leadership, internationally patented technology, and global commercialization and expansion plans align perfectly with my unwavering commitment to a renewable and sustainable future, passion for a cleaner and greener planet, and a carbon-neutral climate."
