DALLAS, TEXAS, USA, September 7, 2023 /EINPresswire.com/ -- Soccer 5 ® has been working with NRPA organizers to plan, design, install and operate a custom cage mini pitch for the annual conference in Dallas October 10-12 within its [SPORTS DEMONSTRATION ZONE](#).

Parks and Recreation departments from around the country will see Soccer 5® in action and discuss their [FIFA World Cup 2026](#) plans.

The pitch is a mini version of a Soccer 5 ® field which have been installed in various parks systems whereby parks can offer more spaces to play soccer, more places to learn soccer, rejuvenate existing parks space, protect the life of existing full size fields and create new revenue streams.

“

We are excited to work with the NRPA team within the always vibrant SPORTS DEMONSTRATION ZONE to offer parks and recreation communities the opportunity to touch, feel and play the small sided game”

*Alan Georgeson*

And as well as parks staff and patrons being able to view, touch and feel a Soccer 5 ® pitch in action, various case studies will be available whereby an existing under utilized parks space has been repurposed at no cost to parks, within a PPP type long term framework agreement, with the planning, design, construction and operation of multiple mini soccer 5G custom pitches.

Alan Georgeson, co founder Soccer 5 ®, commented "we are excited to work with the NRPA team with the design, install and operation of a mini pitch within the always vibrant SPORTS DEMONSTRATION ZONE to offer parks and recreation communities the opportunity to touch, feel and play the small sided game and hopefully imagine how their particular space(s) within
