“

The collagen peptide and gelatin market is expected to witness significant growth, owing to increasing consumption of collagen peptide and gelatin products in developing region like Asia-Pacific.”

Allied Market Research

On the other hand, stringent food regulations toward animal-origin food additives and rise in the act of animal cruelty in animal farms & slaughterhouse impede the growth to some extent. However, growing awareness in the emerging countries has been beneficial for the market growth.

The key market players analyzed in the global collagen peptide and gelatin market report include Darling Ingredients, Inc., Ewald-Gelatine GmbH, Weishardt Group, Trobas Gelatine B.V., GELITA AG, Holista Colltech Limited, GELNEX, LAPI GROUP SpA., Tessengerlo Group, Collagen

Solutions, Plc. These market players have incorporated several strategies including partnership, expansion, collaboration, joint ventures, and others to brace their stand in the industry.

Covid-19 scenario-

There has been a steep increase in demand for collagen peptide products and its supplements among consumers during the pandemic. Consumers are now looking forward to shifting to products that can provide them multidimensional support and long-term immunity. This factor has impacted the global collagen peptide and gelatin market positively.

This trend is most likely to continue post pandemic as well.

The global collagen peptide and gelatin market is analyzed across product type, source, application, and region.

Based on source, the bovine segment accounted for the major share in 2020, holding more than one-third of the global market. The same segment would also exhibit the fastest CAGR of 6.7% throughout the forecast period.

Based on application, the food segment generated the highest share in 2020, accounting for around one-third of the global market. The same segment would also cite the fastest CAGR of 6.4% from 2021 to 2030.
