

Unveiling the Innovative Healthcare Partnership Between BioDatAi and TD SYNEX

FRISCO, TEXAS, USA, September 7, 2023 /EINPresswire.com/ -- BioDatAi, the [healthcare](#) subsidiary of Dallas-based Economic Transformation Technologies (ETT), continues its rapid expansion across the global healthcare and [interoperability](#) marketspace, and is proud to announce its partnership with TD SYNEX, a leading global distributor and solutions aggregator for the IT ecosystem.

We are proud and honored to join forces with TD SYNEX to enable the development and introduction of new innovative healthcare solutions by offering our Interoperability Platform”

Kelly Cook, CEO of BioDatAi

This strategic collaboration aims to revolutionize healthcare services by enabling TD SYNEX, along with their ecosystem of leading solution partners, to capitalize on the complementary capabilities of BioDatAi’s Interoperability Platform to strengthen their offerings and better align their healthcare solutions to the evolving needs of healthcare stakeholders.

Earlier this year, BioDatAi introduced its innovative Intelligent Interoperability Platform, which enables

seamless connectivity among healthcare stakeholders through its FHIR-enabled data architecture. This platform not only enables real-time interoperability of systems and data, but also empowers users to harness the potential of cutting-edge technologies such as artificial intelligence (AI), machine learning (ML), and other data sciences to enhance data intelligence and security. Through this partnership, BioDatAi will work with TD SYNEX and their healthcare partners to align joint capabilities toward enhancing offerings, improve competitiveness, and thus improving the value of overall client service.

TD SYNEX has long been recognized as a foremost distributor of Information Technology solutions on a global scale. With a steadfast commitment to innovation, TD SYNEX empowers over 150,000 customers, across more than 100 countries, to harness the full potential of their technology investments, realize tangible business outcomes, and unlock unprecedented growth. Their expertise lies in effectively harnessing the combined strength of their partner ecosystem to address the most pressing challenges in the healthcare industry today.

“We are proud and honored to join forces with TD SYNEX to enable the development and

introduction of new innovative healthcare solutions by offering our Interoperability Platform as a leveraged capability to TD SYNEX and their partners” expressed Kelly Cook, CEO of BioDatAi. “We are confident in our ability to work with TD SYNEX to collectively deliver groundbreaking solutions that will improve patient outcomes and enhance operational efficiencies for healthcare organizations worldwide.”

Steve Unger, Healthcare Senior Manager at TD SYNEX, shared his perspective for the potential value that BioDatAi will bring TD SYNEX. He remarked, "We believe that BioDatAi's platform will help enable our partners and clients to address the complex challenges facing the healthcare industry today. With BioDatAi added to our vast portfolio of vendor partners, we're able to enrich the breadth and depth of our AI offerings so healthcare customers are empowered to unlock the full potential of their data, driving better decision making and improving patient care."

About TD Synnex:

TD SYNEX (NYSE: SNX) is a leading global distributor and solutions aggregator for the IT ecosystem.
