“We've been working in the Business Central space since 2021 using third party integration tools, but our new native integration is perfect,” said Kevin Pritchard, Fidesic AP's Head Product Manager. “We know from long experience in the GP world that seamlessly integrating to ERP is essential

to help users get the most value out of their invoice processing tools. Now we are delivering the same best-in-class performance for BC that the Dynamics community has come to expect.”

Recent announcements from Microsoft have assured the Dynamics ERP community that Dynamics GP will be supported for years to come and Fidesic is committed to delivering leading AP software for Dynamics GP for the long haul ([Dynamics Great Plains Accounts Payable Solution](#)). Those users who decide to make the transition to Business Central can rest assured their go-to accounts payable tools will migrate with them.

Fidesic AP offers AI powered invoice data capture and unrivaled multi-entity invoice processing

capabilities for BC with intuitive workflows for better tracking and visibility. Fidesic works directly with Binary Stream Multi-Entity Management Solution. Learn more about the solution here: [Microsoft Dynamics 365 Business Central Accounts Payable](#)

Fidesic's AP Automation Solution is the most efficient way to visualize and manage the entire multiple-entity management accounts payable approval process inside D365 BC, with flexible fulfillment services for Electronic Payments or Paper Check.

#### About Fidesic

Originally launched in 2000, before the electronic invoicing and online payments market was available and affordable to Small and Mid-sized companies, Fidesic was doing just that! Today, we still provide the features and functionality that small and medium-sized companies need, at a price that delivers value and significant ROI as soon as a client signs on. Including AP for Great Plains and Business Central Accounts Payable.
