Read more on the global point of care glucose testing market report at:

<https://www.thebusinessresearchcompany.com/report/point-of-care-glucose-testing-global-market-report>

Point-of-care glucose testing refers to a quality-assured pathology service provided in close proximity to the patient rather than in the traditional clinical laboratory setting. It involves glucose testing using small handheld units or glucose analyzers that utilize testing strips to analyze whole blood. This approach reduces the time from specimen collection to result verification, leading to faster therapeutic intervention, reduced preanalytical errors, and improved patient care.

Point of Care Glucose Testing Global Market Report 2023 from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
