\$AVRW Avenir Wellness' Seratopical DNA Complex

Avenir Wellness (OTC: AVRW) is a broad platform technology company that develops proprietary wellness, nutraceutical, and topical delivery systems. The technology, which is based on (15) fifteen current patents, offers a number of unique immediate- and controlled-release delivery vehicles designed to improve product efficacy, safety, and consumer experience for a wide range

of active ingredients. The Company will continue down the path of creating new technologies that will be part of its incubator strategy in order to monetize its IP. As a vertically integrated platform company, Avenir Wellness (AVRW) looks to partner or license its IP technology with wellness companies worldwide.

Avenir Wellness (AVRW) has a current focus on the beauty and wellness markets which are growing at rapid rates. The global wellness sector, despite the pandemic, saw exponential growth in 2021 with a market size of \$1.5 trillion, according to McKinsey.

There is a strong overall and growing demand for supplements and nutraceuticals, a \$587.3 billion market, according to the 2021 Grandview report. The beauty and personal care industry is a \$534 billion market now and is set to grow 5.87% year over year according to Terakeet's 2021 Beauty Industry Report.

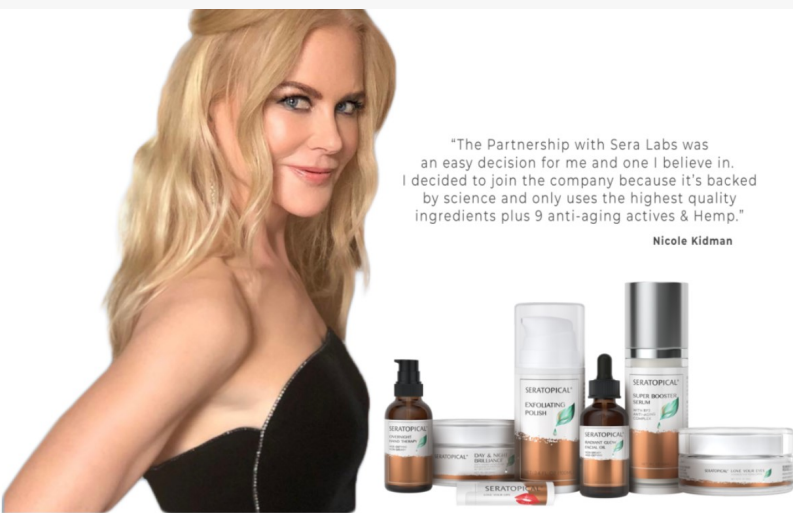

Nicole Kidman is the Global Brand Ambassador of Avenir Wellness Seratopical Revolution Product Line

Avenir Wellness (AVRW) wholly owned subsidiary Sera Labs develops, markets and distributes their proprietary Seratopical Revolution skin careline which is represented by the famous Nicole Kidman as a Strategic Partner and Global Brand Ambassador.

Three years ago, Nicole Kidman contacted Sera Labs management seeking an opportunity to become involved with the Company because she was already using its products. She helped us develop the Revolution line. Her dream was to help Sera Labs create a legacy skincare brand that was affordable to everyone, and it needed to be alcohol-free, natural, and plant-based. After reaching an agreement, Nicole Kidman has been working with the team to reach out to the public to inform them about the line through social media, advertising platforms and the media because she so clearly values its effectiveness.

The story of Nicole Kidman's involvement with Avenir Wellness (AVRW) is detailed on the Company's website here: <https://seralabshealth.com/pages/about> and is also described in a recent interview with Avenir Wellness (AVRW) CEO Nancy Duitch on the well followed "New to the Street" Investment program. The interview can be watched at this link:

"The Partnership with Sera Labs was an easy decision for me and one I believe in. I decided to join the company because it's backed by science and only uses the highest quality ingredients plus 9 anti-aging actives & Hemp."

Partnership with LA-Based Facial Plastic Surgeon Dr. Michael Persky to Support Latest DNA Complex Product Launch

On September 12th Avenir Wellness (AVRW) announced that renowned plastic surgeon Dr. Michael A. Persky, M.D., F.A.C.S., had joined the Company as a welcome addition to the Medical Advisory Board and will help support marketing for the brand's latest launches and advise on new product innovation.

Board-certified and fellowship-trained, Dr. Persky has specialized in facial plastic surgery for almost 40 years. Throughout his career, Dr. Persky has prioritized non-invasive and non-surgical procedures wherever possible and is always looking for products to recommend to patients before they commit to an invasive surgical procedure.

This partnership for Avenir Wellness (AVRW) came about through a long-standing relationship with Nancy Duitch, Avenir CEO and Founder of Sera Labs. In this role, Dr. Persky will support brand marketing, social, and advertising campaigns for the Avenir Wellness (AVRW) brand's latest innovation, patent-pending DNA (Deep Nano Actives) Complex, an instant anti-aging skin tightening serum that penetrates deep into the skin. As an advisory board member, Dr. Persky will also advise on formulating the brand's future plant-based and scientifically grounded products.

"This is the first time that I'm endorsing an over-the-counter skincare product, and what's convinced me to do so is the science behind it, the peptide technology, and my personal experience with it," said Dr. Michael Persky. "I'm all about the truth and can't recommend something unless it's safe, effective, and helps people."
