About Women of Influence Worldwide Inc.

For almost 30 years, Women of Influence+ (WOI+) has been the community where ambitious women with wide-ranging expertise, and innovative ideas go to create a new future for themselves and for the world of work at large. A future where women-led leadership thrives. At WOI+, our ethos is rooted in making meaningful and impactful change. We do this by placing ourselves and our community in positions of influence and power — places where we can drive transformation.

We measure influence by impact — the ripples that are made, the doors that are opened, the number of seats that are added to the proverbial decision-making table. Influence is about how decisions, innovations, and systems create a more inclusive and equitable world for everyone. At WOI+, we are unafraid to shake the status quo to transform society's expectations of our capabilities.

We are dedicated to sharing and elevating the unfiltered success stories of a diverse group of role models. We know that when done right — from the podium or the page — these stories not only inspire, educate, and connect — they start to redefine our perceptions of gender roles and abilities. We are changing the narrative. The result? Our community is equipped with the connections, support, training, and tools to carve new pathways, and excel within their careers on their own terms.
