CORE Networks and CyberCulture Forge Strategic Partnership to Deliver Comprehensive CMMC and NIST Compliance Solutions

NEW ORLEANS, LOUISIANA, UNITED STATES, September 14, 2023 /EINPresswire.com/ -- CORE Networks, a leading provider of IT services and cybersecurity solutions, is thrilled to announce its strategic partnership with CyberCulture, a renowned provider of virtual Chief Information Security Officer (vCISO) services. This partnership marks a significant milestone in the world of cybersecurity and compliance, promising clients a complete solution for achieving CMMC (Cybersecurity Maturity Model Certification) and NIST (National Institute of Standards and Technology) compliance.

In an ever-evolving landscape of cyber threats and regulatory requirements, organizations are facing increasing pressure to safeguard their data and ensure compliance with stringent cybersecurity standards such as CMMC and NIST. The partnership between CORE Networks and CyberCulture brings together two industry-leading companies with a shared commitment to providing clients with robust, end-to-end compliance solutions.

CORE Networks has established itself as a trusted IT services provider, delivering top-tier cybersecurity solutions to clients across various industries. Their expertise in network security, data protection, and compliance management has earned them a reputation for excellence in the cybersecurity field.

CyberCulture, on the other hand, specializes in offering virtual Chief Information Security Officer (vCISO) services. Their team of seasoned cybersecurity professionals provides strategic guidance, risk management, and compliance oversight to organizations of all sizes. With a deep understanding of CMMC and NIST requirements, CyberCulture ensures that clients remain resilient in the face of cyber threats while staying in full compliance with industry regulations.

The collaboration between CORE Networks and CyberCulture will empower organizations to streamline their compliance efforts by providing a comprehensive suite of services, including:

IT Services: CORE Networks will continue to deliver top-notch IT services, enhancing clients' cybersecurity posture through cutting-edge technology solutions and infrastructure support.

vCISO Services: CyberCulture will offer its expertise in the form of virtual Chief Information Security Officer services, providing strategic leadership and compliance guidance tailored to the specific needs of each client.

CMMC and NIST Compliance: Together, the two companies will ensure that clients achieve and maintain compliance with CMMC and NIST standards, safeguarding sensitive data and mitigating cybersecurity risks effectively.

Security Awareness Training: CORE Networks and CyberCulture will jointly provide comprehensive security awareness training programs to educate employees about cybersecurity best practices, reducing the human element's vulnerabilities.

Continuous Monitoring and Assessment: Regular assessments and monitoring will be conducted to identify potential vulnerabilities and take proactive steps to strengthen security.

Commenting on the partnership, Ethan Chabert, President at CORE Networks, stated, "We are excited to join forces with CyberCulture. This collaboration brings together our respective strengths to offer clients a holistic approach to cybersecurity and compliance. By combining our IT services with CyberCulture's vCISO expertise, we aim to simplify the complex task of achieving CMMC and NIST compliance."

Ranbir Bhutani, President at CyberCulture, added, "Our partnership with CORE Networks aligns perfectly with our mission to help organizations navigate the intricate landscape of cybersecurity compliance. Together, we will empower clients to not only meet regulatory requirements but also fortify their security posture against emerging threats."

Clients of both CORE Networks and CyberCulture can expect to benefit from a seamless integration of services, a more efficient compliance journey, and enhanced protection against cyber threats. This partnership underscores the commitment of both companies to delivering innovative solutions that ensure the security and compliance of their clients.
