

Highlights from Construction Links Network - September 14, 2023

Peer-to-peer content sharing platform for the construction, building and design community

SUNDRE, ALBERTA, CANADA,
September 14, 2023 /
EINPresswire.com/ -- Construction Links Network is a unique news platform where members "Get More Eyes" on their digital content and increasing their SEO.

The network includes thousands of Canadian construction managers, contractors, developers, building managers, property managers, architects, designers, engineers, government officials and more.

Members use this platform to share and onboard their digital content including news releases, company announcements, blogs, podcasts, webinars, case studies, whitepapers, videos and more.

Top news this week comes from Statistics Canada as they report that [July building permits in Canada declined 1.5% to \\$11.7 billion](#) despite a monthly gain of 5.4% in the residential sector. Across Canada, July marked the third consecutive monthly increase in single-family home permits, up 7.6% to \$2.8 billion. Construction intentions in the commercial component was \$1.9 billion, while the industrial component posted more modest declines to \$1.1 billion.

The top video this week is courtesy of Infrastructure Health & Safety Association who have produced their latest Safety Talk video that provides a step-by-step guide on how to properly plan your jobsite to ensure worker safety. The video highlights key steps to take, such as setting up the right barricades, putting up identification signs, having a designated muster station, among other measures.
