As we reach the end of our educational journey through "100 Days of Cybersecurity for Transportation," we invite you to mark your calendars and be part of an extraordinary event that promises to be the highlight of the series. [Register](#) today.

Distinguished Keynote Speaker:

We are thrilled to announce that our grand finale will feature a keynote address by none other than TSA Administrator, David Pekoske. With a wealth of experience and a deep understanding of the cybersecurity landscape in transportation, Mr. Pekoske's insights are sure to leave a lasting impression.

David Pekoske's tenure as Transportation Security Administration's seventh administrator commenced with his confirmation by the U.S. Senate in August 2017. Recognized for his exceptional leadership, he was reconfirmed for a second term in September 2022, testament to his unwavering commitment to security and progress.

With oversight of a workforce surpassing 60,000 employees, Pekoske has been at the forefront of security operations at nearly 440 airports across the United States. As leader of the TSA, he has also spearheaded the agency's role as lead federal entity for safeguarding highways, railroads, mass transit systems, and pipelines. Under his guidance, TSA has bolstered

transportation security through dynamic partnerships, a culture of innovation, and cultivation of a dedicated workforce. [LinkedIn](#)
