

MobiClocks Announces Enhanced Integration with Procore

This collaboration promises to automate labor hours, streamline job site hours to Procore, and eliminate manual entries, ensuring data accuracy and efficiency.

FORT LAUDERDALE, FL, UNITED STATES, September 18, 2023 /EINPresswire.com/ -- [MobiClocks®](#), a leader in facial recognition-based time and attendance for construction, proudly announces its refined integration with Procore, the construction management software powerhouse.

This collaboration promises to automate labor hours, streamline job site hours to Procore, and eliminate manual entries, ensuring data accuracy and efficiency for construction professionals.

[George W. Gilbert](#), CEO at MobiClocks®, remarked,

"At MobiClocks we pride ourselves on being partners to the construction industry. As our reach has grown among larger construction enterprises, it's clear that Procore is essential to many of you. By partnering with and integrating into the Procore solution, we simplify the workflows around time and attendance"

Our commitment to you, the builders and creators, is rock solid. With our newest update, we're excited to bring you even more: an automated two-way data exchange with Procore. We're all about making things easier and more accurate for you. This is just the next step in that effort!"

The union of MobiClocks® and Procore marks a significant stride in construction tech, equipping professionals with the advanced tools they need.
