

Spot Fake Online Profiles with FaceCheck.ID's New Red Flag Alert System

Now, users can instantly reverse image search profiles, ensuring a safer online experience.

LAS VEGAS, NEVADA, USA, September 18, 2023 /EINPresswire.com/ -- [FaceCheck.ID, a leading reverse image search platform](#), has introduced an innovative red flag romance scammer alert system to further safeguard its users from potential catfishes and romance scams. The company also added 200,000 known scammer images into its facial recognition database to make detection more robust.

Search The Internet by Image with FaceCheck.ID

According to a recent report from the Federal Trade Commission, romance scam victims lost over \$1.3 billion last year.

“

By expanding our image index and creating visual red flag alerts, we've given our users a powerful new tool to identify deceitful profiles in just a few seconds”

*Lee Chong, CEO of
FaceCheck.ID*

Fraudsters employ tactics like feigning illness and impersonating military personnel, oil rig workers, doctors, or even celebrities. Recognizing this, the FTC encourages the use of reverse image searches as a countermeasure.

FaceCheck.ID's red flag system serves as an early warning for users by clearly marking suspicious matches. Red flag icons prominently appear when the platform detects a stolen image that scammers use or a questionable online footprint.

This provides an immediate signal to proceed with caution when messaging that person.

FaceCheck.ID prioritizes user privacy and security. Using advanced facial recognition under strict

ethical standards, we ensure no user data is stored or misused. Individuals can freely remove their photos from our index instantly without any charges, reflecting our dedication to transparency and trust.

With online dating scams on the rise, conducting [quick reverse image searches on FaceCheck.ID](#) adds a vital layer of protection. Users can reverse image search any profiles that seem too good to be true before investing time and feelings.

FaceCheck.ID remains committed to upholding rigorous standards for transparency and security. The company aims to create a safer online dating environment where genuine connections can flourish.

About FaceCheck.ID Reverse Image Search Engine

FaceCheck.ID combines state-of-the-art facial recognition with ethical AI practices to help users identify potential catfish, romance scammers, and dangerous predators. Its ever-growing image database enables cutting-edge reverse image searches to tell apart real profiles from fake ones.
