Electronic Warfare Market By Capability, Equipment, Product, And Platform: Global Opportunity Analysis And Industry Forecast, 2021–2028

PORTLAND, OR, UNITED STATES,
September 18, 2023 /

EINPresswire.com/ -- As per the report published by Allied Market Research, the [global electronic warfare market](#) generated \$15.81 billion in 2020, and is estimated to reach \$23.56 billion by 2028, growing at a CAGR of 5.6% from 2021 to 2028.

Increase in adoption of electronic warfare systems due to rise in territorial and intercountry conflicts, rise in need for surveillance, intelligence, and self-protection capabilities, increase in demand for missile defense detection systems, and development in warfare technologies have boosted the growth of the global [electronic warfare market](#). However, high deployment cost and vulnerability of electronic warfare systems to cyberattacks hinder the market growth. On the contrary, surge in defense expenditure and implementation of electronic protection systems in civil aviation are expected to open lucrative opportunities for the market players in the future.

Covid-19 scenario:

The Covid-19 pandemic forced several governments to impose strict lockdown and social distancing norms to curb the spread of the virus. This resulted in a downfall in global trade and demand for electronic warfare.

The prolonged lockdown resulted in delays in activities and initiatives about the development of innovative electronic warfare solutions.
