

# Offshore Wind Turbine Market to witness substantial gains by 2031

*Offshore Wind Turbine Market size to grow at a CAGR of 8.28% from 2022 to 2031.*

WILMINGTON, DELAWARE, UNITED STATES, September 18, 2023

/EINPresswire.com/ -- The [offshore wind turbine market](#) size was valued at \$17.8 billion in 2021, and offshore wind turbine market size is estimated to reach \$39.2 billion by 2031, growing at a CAGR of 8.28% from 2022 to 2031.

Offshore wind turbines are large-scale wind energy installations located in bodies of water, typically in coastal areas or offshore. These turbines harness the kinetic energy of the wind to generate electricity. Offshore wind farms are a critical component of renewable energy strategies, as they offer several advantages over onshore wind farms, including stronger and more consistent winds, which result in higher energy production.

The major companies profiled in offshore wind turbine market report include,

Enercon GmbH

General Electric

Goldwind

Nordex SE

Regen Powertech

The image shows the cover of a market research report titled "OFFSHORE WIND TURBINE MARKET". The cover features a photograph of a wind farm with several turbines in a coastal area. The text on the cover includes: "OFFSHORE WIND TURBINE MARKET", "OPPORTUNITIES AND FORECAST, 2021 - 2031", and "Offshore wind turbine market is expected to reach \$39.2 Billion in 2031". The Allied Market Research logo is visible in the top left corner of the cover image.

Offshore Wind Turbine

Sinovel Wind Group

Suzlon Energy Limited

Zhejiang Windey

VESTAS

Siemens Energy

In 2021, Asia-Pacific region dominated the global offshore wind turbine market with more than 41.4% of the share, in terms of revenue.

Offshore Wind Turbine Market Analysis, the large (greater than 100MW) segment accounted for 75.04% offshore wind turbine market share in 2021, and is anticipated to grow at a rate of 8.12% in terms of revenue, increasing its share in the global offshore wind turbine market during the forecast period.

The industrial segment is the fastest-growing application segment in the global offshore wind turbine market, and is expected to grow at a CAGR of 7.97% during 2022–2031. This is due to increase in investment in the major manufacturing industries, such as chemical, electronic towards the renewable energy as a power source.

Increase in research and development of more efficient wind turbine is expected to drive the growth of the offshore wind turbine market for the industrial segment across the globe.

The technological development to produce more efficient and reliable wind turbines is making wind power more cost-effective.

Government initiative to discover alternative sources of energy and depleting natural resources of energy drives the offshore wind turbine market.

However, heavy initial investment for the production and installation of wind turbines hamper the offshore wind turbine market growth.

#### IMPACT OF COVID-19 ON THE GLOBAL OFFSHORE WIND TURBINE MARKET

Emergence of COVID-19 had a negative impact on the growth of the offshore wind turbine market during this period.

This impact is mostly attributed to the significant disruptions in the raw material transportation,

presence of low-labor, led to shutdown of many manufacturing industries led to decline of demand power hence decrease in the demand for offshore wind turbine market during this period.

The increasing demand for environment friendly manufacturing products and increase in awareness among the people towards the environment will hamper the growth of offshore wind turbine market.

Wind turbine allows harnessing the power of the wind and turning it into the electrical energy. Wind energy is one of the most affordable, clean, and readily available renewable energy sources.

About Us

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

Pawan Kumar, the CEO of Allied Market Research, is leading the organization toward providing high-quality data and insights. We are in professional corporate relations with various companies and this helps us in digging out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
