

SensorSuite announces new CEO and strategic investment.

PropTech company SensorSuite has announced Kristian Lavereau as its new CEO and Hazelview Ventures as a new investor to drive product and market expansion.

TORONTO, ONTARIO, CANADA, September 19, 2023
/EINPresswire.com/ -- SensorSuite announces new CEO and strategic investment

Building controls solutions provider [SensorSuite Inc.](#) has announced the appointment of Kristian Lavereau as its new Chief Executive Officer along with a new, strategic investment from [Hazelview Ventures](#) Inc. ("HVI").

Mr. Lavereau brings over 25 years of experience in the PropTech sector, developing and launching innovative smart building technologies including intelligent HVAC controls that reduce GHG and deliver energy efficiency gains and visibility across portfolios.

"I am excited to work with the SensorSuite team as we launch into the next phase of growth and innovation for our customers," says SensorSuite's new CEO, Kristian Lavereau. "Our technology solutions have been developed in preparation to meet the market trends in decarbonizing, electrification and smart building reporting, analytics and optimization which supports our long-term plans and vision in the sector. The recent HVI investment in SensorSuite is an endorsement of the value and scalability of our technology and will accelerate our continued growth in Canada and expansion into the US market."

“

"I am excited to work with the SensorSuite team as we launch into the next phase of growth and innovation for our customers,"

Kristian Lavereau

New investor Hazelview Ventures is the venture capital arm of Hazelview Investments, investing and partnering with innovators in the PropTech, BuildTech and CleanTech environment that offer creative solutions to improve efficiency and sustainability across the Hazelview property

SensorSuite CEO, Kristian Lavereau

and development management platform.

“Having implemented SensorSuite’s controls platform within our building portfolio, we have seen firsthand the impact this technology can have to help us achieve sustainability goals while ensuring resident comfort remains a top priority” says Roger Poirier, co-founder of HazelviewVentures. “We are confident that SensorSuite will continue to play a pivotal role in helping organizations reach their sustainability goals, and we look forward to working with Kristian and his team”

Mr. Lavereau shares Mr. Poirier’s optimism on the partnership. “We are very excited to have Hazelview Ventures join Business Development Bank of Canada (“BDC”) and [Greensoil Building Investment Fund](#) (“GBIF”) in our investor group,” says Mr. Lavereau. “This strategic partnership creates a range of opportunities for SensorSuite to advance its innovative line of controls products and reinforce its position as a leader in the building IOT energy efficiency space.” Mr. Lavereau adds, “The company acknowledges with gratitude the contributions of former CEO Glen Spry, who will continue providing advisory services to the company for a period of time while he pursues new initiatives to contribute to the clean energy transition”.

About SensorSuite Inc.

SensorSuite, a leading energy management PropTech company, delivers building performance for small and medium sized buildings. Through load and supply management systems, SensorSuite improves building performance and enables energy as an asset.
