

Glorium Technologies was named to the Inc. 5000 list of fastest-growing private companies in America

Glorium Technologies, a software development company, excelling in Healthcare & Real Estate solutions, earned its 4th Inc. 5000 honor for fast growth.

PRINCETON, NJ, USA, September 20, 2023 /EINPresswire.com/ -- The list represents an unparalleled look at the most successful companies within the economy's most dynamic segment — its independent businesses. Facebook, Under Armour, Microsoft, and many other well-known names gained their first national exposure as honorees on the Inc. 5000.

The Inc. 5000 class of 2023 represents companies that have driven rapid revenue growth while navigating inflationary pressure, the rising costs of capital, and seemingly intractable hiring challenges.

“

We are thrilled to be included in the Inc. 5000's list for the fourth year in a row! It's an honor to be recognized in this way, and it's a testament to our team's hard work and dedication”

Andrei Kasyanau, Chief Executive Officer at Glorium Technologies

Among this year's top 500 companies, the average median three-year revenue growth rate ticked up to an astonishing 2,238 percent. This year's Inc. 5000 companies have added 1,187,266 jobs to the economy over the past three years.

Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found at <https://www.inc.com/inc5000/2023>.

"As a team of professionals completely committed to our clients' success, we are deeply grateful to attribute this milestone to our 100+ clients who

opened doors of opportunity for Glorium Technologies," adds Andrei Kasyanau, Chief Executive Officer at Glorium Technologies.
