

Neureka® and Epilepsy Solutions Partner to Empower Families with Epilepsy in the United Kingdom

SAN FRANCISCO, CALIFORNIA, UNITED STATES, September 20, 2023 /EINPresswire.com/ -- [Neureka®](#), a global leader in data-driven at-home epilepsy care, today announces its launch in the United Kingdom through a partnership with [Epilepsy Solutions](#), a premier telehealth products company. The partnership marks a pivotal step in empowering underserved families with epilepsy through home-based epilepsy technology.

We are excited to collaborate with Neureka to introduce their transformative solutions, designed to enhance quality of life and create lasting value for our clients."

Lisa Cox, Technology Enabled Care Consultant at Epilepsy Solutions

The partnership aims to support more than 640,000 people in the UK with epilepsy, while addressing its annual £1.930 billion burden on the healthcare system.[1,2] The collaboration provides cutting-edge AI technology to improve the quality of life of families with epilepsy, from the comfort of their homes.

Neureka®, creator of Neureka® Sleep, brings families peace of mind with caregiver alerts, medication management, and at-home monitoring during sleep, when Sudden Unexpected Death in Epilepsy (SUDEP) can strike. By

collecting millions of data points each sleep session, the system generates unprecedented clinical insights for early interventions, enhancing patient safety and outcomes.

"We're honored to partner with Epilepsy Solutions to grow into the UK, home to a large underserved patient population, and a rich ecosystem of healthcare providers and advocacy organizations," says Ray Iskander, CEO of Neureka®. "Together, we're confident we can serve families with epilepsy in the UK."

Epilepsy Solutions, founded in 2011 in the UK, is a trusted reseller of epilepsy technology and provider of support services. They bring operational expertise in sales management, shipping and fulfillment, and compassionate customer care to empower their clients.

"We are excited to collaborate with Neureka to introduce their transformative solutions, designed to enhance quality of life and create lasting value for our clients," says Lisa Cox, Technology Enabled Care Consultant at Epilepsy Solutions.

Will Jones, Chief Customer Officer of UK-based health software company, Cascade3d, adds, "We're thrilled by this partnership, which will help us better serve our clients. We use analytics to ensure assisted living isn't just about living, but thriving. The Neureka Sleep monitor is a key component to unlocking better well-being for all."
