

# Alberta harvest ahead of five-year average

CALGARY, ALBERTA, CANADA,  
September 22, 2023 /

EINPresswire.com/ -- Veripath

Farmland Partners (Veripath) has extensive holdings of Alberta farmland within its Veripath Farmland Fund Limited Partnership ("UR Fund") and is pleased by early reports of what is likely to be a successful harvest in the province.

According to the most recent Alberta department of Alberta Agriculture and Irrigation [crop report](#), as of September 12, "the crop harvest [is] 44 per cent complete, 6 per cent ahead of the 5-year average."

"Veripath has extensive farmland holdings in the province of Alberta and while we are not operators of farms, we are pleased by early reports of a successful harvest. The dedicated farmers who lease our land continue to see success in their efforts to meet the growing global demand for food," said Veripath Vice President Carmon Blacklock.

For more information, email [admin@veripathpartners.com](mailto:admin@veripathpartners.com).

Veripath operates on the conviction that worldwide demand for the agricultural products used for food, feed, and fuel makes farmland a valuable long-term investment and that valuation discounts continue to be present in Veripath's target markets. In addition, throughout history farmland has demonstrated a strong capacity to hedge both inflationary and stagflationary economic climates.

## Who is Veripath?

Veripath is an alternative investment firm focusing on farmland. Veripath believes that there are a number of factors that are supportive of the farmland investment premise, a few of which are highlighted below.

- Value: Canada has some of the most competitively priced farmland in the developed world – particularly on a productivity adjusted pricing basis.

- Diversification: Farmland exhibits low correlation to traditional stock/bond investments so can improve portfolio risk diversification.
- Inflation Hedging: Farmland has historically had strong inflation/stagflation hedging capabilities.
- Demand: Farmland is a non-volatile way to capture the anticipated incremental demand coming from population growth and growing demands for food, feed, fuel and water globally.

Veripath divides the Canadian market into two separate geographies of ~84M acres each in order to streamline and simplify farmland ownership regulatory compliance. Veripath Farmland (UR) LP invests in all of Canada (excluding SK and MB) and Veripath Farmland LP invests just in SK and MB. The two sister Funds have the same terms and fee structures.
