

Matexcel Announces Back to School Sale 2023

Matexcel is delighted for the launch of a back-to-school promotion as appreciation for its customers' continuous support.

SHIRLEY, NEW YORK, UNITED STATES,
September 21, 2023 /EINPresswire.com/ --

Matexcel, a biotechnology company that provides a comprehensive list of products and services for researchers in the material science, is delighted for the launch of a back-to-school promotion as appreciation for its customers' continuous support. All the products and services at Matexcel can have certain discount during the promotion time.

Matexcel is a renowned biological material company with a product range that encompasses hydroxyapatite, [chitosan](#), hyaluronic acid, bioglass, [metal powders](#), and biodegradable and tissue engineering materials. In addition to pioneering product offerings, Matexcel also provides a suite of related services catered to every need.

"As the school season commences, most of you will be kicking off groundbreaking research and innovative projects. To provide a launching pad for your creativity and contribute to your enlightening journey of discovery, we bring to you our "Back to School" promotion." Said Johnson, one of the representative speakers from Matexcel.

During Matexcel's promotion, customers will enjoy a 5-10% reduction on its entire products and service range. The specific discount applied depends on the particular product or service chosen. "Whether you are looking for Hydroxyapatite for bone and dental applications, chitosan for wound healing, hyaluronic acid for tissue regeneration, bioglass for tissue engineering, metal powders for various industrial applications, or any of our other cutting-edge materials, this is the right time to invest!" added Johnson.

Comprehensive suite of services at Matexcel is also enveloped in this exclusive offer, including: [standard test](#), materials analysis services, consumer & industrial product testing, graphene modification, nano-bio services, polymer manufacturing services, metallurgy service, AFM probe functionalization, mechanical environmental reliability test, environmental test, climate environmental reliability test, and tissue engineering scaffold.

"But remember, our "Back to School" sale only lasts from September 1st to the 30th. Don't let

this opportunity slip away! Invest in the state-of-the-art materials and services you need today, and save for the brilliant projects of tomorrow!" added Johnson.
