*ESMoA is transforming into a mobile museum, working out of Lawndale as its new hub. This shift to mobility aims to make art more accessible across all of LA.*

EL SEGUNDO, CA, UNITED STATES, September 21, 2023 / EINPresswire.com/ -- The Experimentally Structured Museum of Art ([ESMoA](#)) is embarking on a bold new chapter to transition from an exclusively brick-and-mortar institution to an ever-evolving mobile museum.

Their existing creative art laboratory in Lawndale (14929 Hawthorne Blvd) will serve as ESMoA's new hub. From there, ESMoA will continue to host their signature exhibitions and provocative programs for all to enjoy. Beyond activating their new hub, ESMoA will curate mobile shows that will tour unconventional spaces across LA – transforming them into artistic hotspots. ESMoA plans on bringing immersive experiences to new neighborhoods as they highlight community artists and collaborate with local stakeholders.

“

This shift to mobility will really allow us to make art more accessible and inclusive than ever before.”
