On the other hand, the music concerts category is anticipated to grow at the highest CAGR of 11.7% during the forecast period. This is attributed to increase in popularity of such events among the global population, especially the youth and middle-aged individuals, which boost the U.S. events market growth. Furthermore, such music concerts and events offer valuable opportunities for promoters and brands to align themselves with people attending concerts.

Depending on revenue source, the sponsorship segment accounted for the highest revenue in 2020.
