

The CEO Views Recognizes Loren Data Corp. as one of the Most Influential Companies of 2023

The CEO Views has identified Loren Data Corp., a leading B2B eCommerce company, as one of the Most Influential Companies of the year 2023.

FARMINGTON, MI, USA, September 26, 2023 /EINPresswire.com/ -- The CEO Views has identified [Loren Data Corp.](#), a leading B2B eCommerce company focused on innovative EDI Network Solutions, as one of the Most Influential Companies of the year 2023.

Loren Data and its CEO, Todd Gould were awarded the honor and featured in the most recent annual listing that showcases businesses at the forefront of their respective industries. The publication interviewed Mr. Gould and discussed several aspects of the company, from its origin to its current mission and plans for the future.

Loren Data has been a leader in EDI communications, allowing businesses to exchange critical supply chain information with reliability, simplicity, and integrity.

"It's a great honor to announce Loren Data as one of the Most Influential Companies of the year 2023," said Ben Johnson, Managing Editor of The CEO Views.

The evolution of Loren Data and its backbone communications network, [ECGrid®](#), stems from an innate innovative culture and true desire to improve the flow of commerce by accelerating supply chain processes. Loren Data's history of continuous improvement enables the company to stay at the forefront of technology and features, establishing itself as a team of experts and

Loren Data Most Influential 2023

trusted advisors to the industry and its customers. EDI might be an older IT technology, but it is the foundation of the very modern global supply chain.

“We’re proud of our influence on businesses seeking to improve their bottom line through the efficiencies that EDI offers and we’re grateful for all the partners and customers who rely on us for continuous innovation,” stated Mr. Gould, Founder of Loren Data Corp. “As a proven tool, EDI allows us to build faster and more reliable systems to deliver products and

services, worldwide, along with providing all parties involved rich, contextual data for discovering inefficiencies, forecasting future demands, and fuelling AI analysis.”

Loren Data Powered by Innovation
