

# Autism Behavior Services, Inc. Breaks Barriers Amid Pandemic Challenges

*Autism Behavior Services, Inc. successfully leveraged telemedicine to break down barriers and provide autism therapy services through the pandemic and beyond.*

LAKE FOREST, CA, UNITED STATES, September 26, 2023 /EINPresswire.com/ -- In a remarkable

“

The idea of ‘Telehealth’ was really in its infancy before March 2020.”

*Andrew Patterson*

display of resilience and commitment to their mission, [Autism Behavior Services, Inc.](#) (ABSI) successfully leveraged telemedicine to break down barriers and provide vital autism [therapy services](#) through the COVID-19 pandemic and beyond. This innovative approach not only ensured continuity of care for individuals on the autism spectrum but has also set a new standard for remote healthcare

delivery.

The COVID-19 pandemic posed unprecedented challenges to healthcare systems worldwide, prompting the need for creative solutions. Autism Behavior Services, Inc. recognized the critical importance of uninterrupted therapy for individuals with autism and their families. By swiftly embracing telemedicine (and in some cases providing devices for families in need), the organization demonstrated its dedication to overcoming obstacles and ensuring that essential therapy services remained accessible.

“The idea of ‘Telehealth’ was really in its infancy before March 2020,” states Autism Behavior Services, Inc. President, Andrew Patterson. “We had piloted it in a few places we offer care but the COVID-19 Pandemic accelerated things greatly. Thankfully, we have team members that adapted seamlessly to the fluidity of the situation, and families that were open to learn new technologies. It boiled down to the trust and faith they have with us for the care of their loved ones. That was part and parcel of [ABSI's](#) ability to provide continuous care, which is crucial to the success of the clients we serve.”

Through a seamless integration of technology and clinical expertise, Autism Behavior Services, Inc. transitioned its in-person therapy programs to a virtual platform, effectively reaching clients in the comfort and safety of their homes. This transition has not only preserved the quality of therapy but has also allowed for increased flexibility in scheduling and reduced geographical limitations. Families have praised the organization's efforts, highlighting the positive impact of telemedicine on their loved ones' progress and well-being.

As the world adapts to the evolving landscape of healthcare, Autism Behavior Services, Inc. stands out as a beacon of innovation and compassion. By breaking down barriers through telemedicine, the organization remains unwavering in its commitment to enhancing the lives of individuals with autism. Their dedication serves as an inspiration to the broader healthcare community, emphasizing the potential of technology to revolutionize care delivery, even in the face of unprecedented challenges.

About Autism Behavior Services, Inc.:

Autism Behavior Services, Inc. is a leading provider of autism therapy services, dedicated to supporting individuals on the autism spectrum and their families. With a focus on evidence-based interventions and compassionate care, the organization has continuously adapted to meet the needs of its clients. With locations worldwide, Autism Behavior Services, Inc. main goal is providing premier care to the multitudes of people receiving services.
