Senator Booker has always been an advocate for young people and our voices. He was one of the first politicians to use social media to connect with constituents and he's been a powerful voice in the Senate for issues like gun reform, climate change, and criminal justice reform. We're excited to hear what he has to say and to have their voices heard. We need to come together and have these important conversations so that we can move forward and make change.

If you want to hear what GenZ is thinking about -make sure to tune in to Senator Booker's conversation on Tuesday, September 26th at 10am ET on YouTube here:
