Definition:

Oilfield services refer to a broad range of specialized services and support activities provided to the oil and gas industry. These services are essential for the exploration, drilling, production, and maintenance of oil and gas wells and reservoirs. Oilfield services companies play a crucial role in helping oil and gas companies extract hydrocarbons from the earth efficiently and safely. This category covers services related to the actual drilling of oil and gas wells, including directional drilling, horizontal drilling, and wellbore construction. Services related to preparing a drilled well for production, including cementing, perforating, and hydraulic fracturing (fracking).
