The key highlights of the report include:

Market Overview (2018-2028)

Historical Market Size (2020): 0.57 million metric tons

Forecast CAGR (2023-2028): 2.4%

The sorbitol market in Europe, the Middle East, and Africa is boosted by the region’s booming food and beverage and cosmetics industries. In the area, Germany is the major sorbitol market. The healthy food and beverage business in Germany is helping to boost the sorbitol market. The expanding R&D endeavours in the food and beverage industry in the region are also predicted to

help the sorbitol market in Germany.

The shifting consumption trend toward fiber-based meals in developed nations, such as Germany and France, is likely to fuel demand for fiber-rich goods, consequently enhancing demand for sorbitol throughout the forecast period, owing to increased awareness about nutritional enrichment. Bread's dominance as a staple item in Europe is predicted to continue to be a positive driver for industry growth in the future years.

Europe Middle East and Africa Sorbitol Industry Definition and Major Segments

Due to its low calorie content, sorbitol is becoming increasingly popular as a beneficial component in dietary meals and beverages, where it works as an excellent sugar alternative. Significant advantages, such as lower calorie content, prevention against dental decay, and usage as a sugar substitute for diabetics, are critical for market growth.

Regulatory support for sorbitol fortification in a variety of food products is projected to have a major influence on market growth. Regulatory support for sorbitol fortification in a variety of food products is projected to have a major influence on market growth.

Low production costs attributable to big manufacturers' economies of scale, along with rising demand for functional foods, are likely to create new prospects for the industry. The increased demand for sweeteners like xylitol, maltitol, and other sugar replacements in nutritional supplements is projected to constitute a market restraint.
