

# Orevital Unveils Transdermal Non-Invasive GHRP-2 Peptide Cream

*Transdermal cream of GHRP-2 Peptide and CJC 1295 Peptide*

MIAMI, FL, USA, September 26, 2023 /EINPresswire.com/ -- OreVital Labs is thrilled to introduce the revolutionary OreVital Body Firming [GHRP-2 Peptide Cream](#), a cutting-edge transdermal solution that seamlessly blends the potent peptides GHRP-2 Peptide (Sermorelin) and CJC 1295 Peptide (Ipamorelin) with magnesium in an innovative topical cream formula.

OreVital GHRP-2 Peptide Cream is poised to revolutionize the pursuit of enhanced performance, vitality, and overall well-being. This unique formulation leverages the science of transdermal delivery, enabling the direct transportation of active ingredients to tissues and cells, bypassing the need to navigate the gastrointestinal tract.

“

HGH Peptides are nature's whispers, unlocking the body's potential for vitality and well-being, one molecular secret at a time”

*Murad Sweiss*

Traditionally, these benefits were only attainable through injections or oral consumption. However, transdermal administration of GHRP-2 and CJC 1295 (Ipamorelin) offers a safe, efficient, and cost-effective alternative, swiftly gaining favor among athletes. OreVital GHRP-2 Firming Peptide Cream consistently garners positive customer feedback, with testimonials steadily increasing.

Transdermal Delivery Systems for Natural Products in Skin Therapy and Care highlight the longstanding preference for natural products due to their non-toxic nature and low irritant potential. Transdermal delivery systems, including ointments, patches, and gels, have long been pivotal in addressing skin-related concerns and have been highly favored by industry leaders like Mindful Minerals in their [Campaign for Safe Skin Care](#).

### Revolutionizing Athletic Performance & Weight Loss

**Body Firming Peptide**  
**GHRP-2 (Growth Hormone Releasing Peptide) & IPAMORELIN**

- Deliver growth hormone-releasing peptides to the body via the skin (Transdermal).
- Assist in converting fat to lean muscle, improving the body's metabolic function.
- OreVital is the 1st to present these promising peptides in a topical application.

**NEW**

**COLLAGEN BUILDING AGE-REVERSAL PEPTIDE**

CJC 1295 Peptide, GHRP-2 peptide

OreVital's non-invasive peptide delivery system empowers precision treatment of specific body regions, addressing skin issues and localized discomfort effectively. OreVital GHRP Compound, available topically, is increasingly favored by athletes compared to oral or injectable methods. Here's how it works: GHRP-2 & [CJC 1295 Ipamorelin](#) peptides target abdominal fat, converting it into lean muscle. When applied topically, magnesium and minerals facilitate transdermal absorption, ensuring the direct delivery of peptides and magnesium to deep tissues, cells, and the bloodstream, thereby maximizing their efficacy.

About OreVital Labs: At the forefront of transdermal mineral skin supplements, OreVital Labs is dedicated to crafting cutting-edge transdermal solutions that promote optimal health and wellness. Our mission centers on harnessing the potency of essential minerals, peptides, and non-toxic ingredients to help individuals achieve their wellness aspirations. Our proprietary transdermal approach makes it possible to experience the remarkable benefits of these peptides topically, eliminating the need for injections.
