Founded in 2016 by an executive team with extensive experience in social services and managed care, BeneLynk has been at the forefront of enhancing the lives of Medicare Advantage and managed Medicaid members. BeneLynk "leads with help" to deliver innovative and personalized outreach and advocacy. They have created a positive impact on this country's most vulnerable populations by improving access to programs that greatly reduce social risk factors.

One million members assisted represents not just a number but a remarkable journey of compassion and care. This milestone includes a combination of BeneLynk's [community](#) and [dual eligibility](#) advocacy efforts. BeneLynk provides advocacy centered around a human-to-human conversation. One million members have had a conversation with a BeneLynk advocate and been assisted with enrollment into impactful benefit programs. With the inclusion of their retention services, BeneLynk has positively impacted well over two million lives. These services have been crucial for plans as the Medicaid continuous coverage requirement unwinding continues to affect Medicaid recipients throughout the country.

"We are thrilled to have reached this extraordinary milestone of assisting one million members," said Sean Libby, President of BeneLynk. "This achievement reflects the trust and confidence our health plan clients and their members have placed in us. We are privileged to play a positive role in so many lives and are grateful to be able to support members through some of their most

difficult challenges. I want to thank our clients and all of my BeneLynk colleagues whose hard work and compassion have allowed us to celebrate this achievement.”
