

# Demand for Organic Foodstuff to drive the Organic Gummy Worms Market, reaching US\$ 705.6 Million by 2033

*The Surge in Popularity of Organic and Non-GMO Gummy Worms in Germany: Driven by Shifting Consumer Tastes and Heightened Health Awareness*

NEWARK, DELAWARE, UNITED STATES OF AMERICA, September 27, 2023 /EINPresswire.com/ -- The global [organic gummy worms market](#) is worth US\$ 390.3 Million as of now and expected to be worth US\$ 705.6 Million by the year 2033 at a CAGR of 6.1% between 2023 and 2033.

Organic gummy worms come across as flavorful and chewy candies shaped like worms; made out of natural chemicals that could be sourced from plant extracts, vegetables, and fruits. Consumers do go for organic options as they are convinced that they are good for health.

Organic gummy gums are being made available in various flavors inclusive of strawberry, watermelon, grapefruit, cherry, mango, and likewise. Out of these, orange flavor is in greatest demand due to the tangy taste imparted. As such, it's used various products ranging from sodas to savory dishes. Also, orange is rich in vitamin C.

Brick and mortar stores are preferred over online stores as consumers would have product in-hand instead of awaiting delivery. Additionally, these stores do offer sampling opportunities. This is another advantage offered.

Future Market Insights has walked through these facts with future prospects in its latest market study entitled 'Organic Gummy Worms market'. It has its team of analysts and consultants to table primary, secondary, and tertiary modes of research using a hawk's eye.

## Key Takeaways from Organic Gummy Worms Market

North America dominates the market with the US witnessing consumers getting extra-mindful regarding their food choices, thereby showing willingness toward shelling out premium prices for the organic products, thereby them being looked upon as being better for environment apart

from health. The health food stores are also getting flooded with organic gummy worms. Also, manufacturers are into development of gummy worms meeting specified dietary requirements like being allergen-free, gluten-free, and likewise.

Europe stands second in the organic gummy worms market with Germany ruling the roost. This could be attributed to regulations being laid down in food sector regarding consumption of nutritious diet. The manufacturers are making relentless efforts for sourcing ingredients well. This is inclusive of reducing environmental footprint along with adoption of sustainable manufacturing methods.

“With organic food vertical governed by various certification standards for ascertaining that products meet organic criteria, organic gummy worms market is likely to grow on a secure and unstoppable note in the forecast period”, says Nandini Roy Choudhury, Client Partner at Future Market Insights.
