□"Godzilla Interception Operation" Summary

"Godzilla Interception Operation" is a unique attraction centered around a 120-meter-long Godzilla, the world's largest, which has risen from the sea onto Awaji Island. This one-of-a-kind attraction lets you feel the true awesome power of the world-famous monster. Participants join the National Awaji-Island Institute of Godzilla Disaster (NIGOD) and take part in highly detailed research missions that see them infiltrating Godzilla's body via zipline and eliminating dispersing Godzilla cells in a shooting game. Visitors can also purchase original NIGOD goods and enjoy dishes specially designed with the theme of "Godzilla Interception Operation".
