He added “As businesses continue to foray into the digital realm, threat actors keep evolving their modus operandi. Businesses looking to achieve optimal cybersecurity posture face challenges like increased complexity of cybersecurity solutions, siloing of cybersecurity functions, and rising cost of enterprise-grade cybersecurity. They are looking for one vendor who offers both cybersecurity services and compliance assurance under one roof, however, they find it challenging to find such a vendor.

If a vendor offers one specific aspect of cybersecurity services they would not cater to another aspect, The result? businesses struggle to manage multiple vendors to meet their cybersecurity and compliance needs.

To worsen this situation, there is increased pressure from regulatory bodies on businesses to become more compliant with the InfoSec and cybersecurity guidelines issued by them. SharkStriker seeks to solve this by offering holistic cybersecurity services that seek to cater to every aspect of cybersecurity and compliance all through a unified platform STRIEGO.”

“MSSP Alert and CyberRisk Alliance congratulate SharkStriker on this honor,” said Jessica C. Davis, editorial director of MSSP Alert, a CyberRisk Alliance resource. “The Top 250 MSSPs continue to outperform the overall cybersecurity services market in 2023. It’s an indication of the strength of managed security services provided by these specialists at a time when cybercrime has accelerated and threatens businesses of every size and from every industry.”
