CHICAGO, ILLINOIS, UNITED STATES, September 27, 2023 /EINPresswire.com/ -- The 32nd biannual [Trinity Health Freedom Expo](#) is set to take place on October 14th and 15th at the Tinley Park Convention Center in Tinley Park, Illinois. This remarkable event will be featured by author and Founder and Executive Chairman of the Center for Security Policy, [Frank Gaffney](#). Mr. Gaffney will discuss the insidious roles being played by the Chinese Communist Party and its "China Model," the World Health Organization, and the COVID-19 Pandemic 1.0 and what's coming next in ending individual and national sovereignty and health freedom.

Attendees of the conference will be able to learn from natural health experts and health freedom advocates through immersion seminars and workshops. With an emphasis on the "right to know and freedom to choose" what's best for personal health, this event provides participants an opportunity to gain valuable insights into how they can support their health and protect themselves and their families from healthcare tyranny.

This year's Expo also marks a notable landmark for the organization as it celebrates its 18th anniversary. Founded in 2005, the Trinity Health Freedom Expo was created as a forum to provide individuals with information regarding natural living methods for optimal physical and mental well-being. As a result, this life-changing event has grown in attendance, with more than 75 exhibitors attending this year's edition.

The key message of the event is clear: "Knowledge Is Power." Empowerment comes only when individuals are educated on their rights and gain access to resources that allow them to exercise choice. Don't miss out on this unique chance to learn more from some of today's top health experts about protecting yourself and your family.
