

Maxis Clinical Sciences Launches Real-World Evidence Solutions for Patient-Centered Clinical Research & Drug Development

Data-Driven Insights Designed with Patients in Mind

EDISON, NEW JERSEY, UNITED STATES,
September 27, 2023 /

EINPresswire.com/ -- Maxis Clinical Sciences, a trusted brand for small to medium-sized pharmaceuticals and life sciences companies worldwide, announced today the launch of its latest offering — Real-World Evidence Solutions. Specializing in strategic transformation initiatives, the company's new [Real-World Evidence \(RWE\) Solutions](#) aim to enhance both clinical research and patient care by incorporating real-world data and automating trial workflows.

Maxis Clinical Sciences' Real World Evidence Solutions

“

Real-world evidence is set to optimize evidence-based medicine. By capturing data from diverse patient populations in real-world settings, we can create a thorough and accurate pool of evidence.”

*Dr. Kavita Lamror, Partner,
RWE & Digital Transformation*

"Real-world evidence is set to optimize evidence-based medicine. By capturing data from diverse patient populations in real-world settings, we can create a thorough and accurate pool of evidence," said [Dr. Kavita Lamror, Partner, RWE and Digital Transformation](#) at Maxis Clinical Sciences. "Our RWE Solutions simplify the integration of this evidence into clinical trials, aiding companies in their drug discovery and development efforts."

Maxis Clinical RWE Solutions tackle a range of pressing issues in the clinical research and healthcare sectors. By seamlessly integrating diverse real-world data sources,

such as patient-reported outcomes and wearable devices, Maxis Clinical Sciences' RWE Solutions enhance patient engagement and data quality. This is particularly crucial for:

- Personalized Medicine: Enabling more targeted treatment plans based on real-world patient data.

- Regulatory Submissions: Facilitating smoother regulatory approvals by providing robust real-world evidence.

- Health Economics and Outcomes Research (HEOR): Offering valuable insights into the cost-effectiveness and quality-of-life impacts of different treatments.

- Drug Repurposing: Identifying new therapeutic uses for existing drugs based on real-world patient outcomes.

- Patient Recruitment: Streamlining the identification and enrollment of suitable candidates for clinical trials, thereby accelerating the research timeline.

Maxis Clinical Sciences Logo

The integrated technology and service platform of Maxis Clinical Sciences accelerates the collection and analysis of real-world data, enabling life sciences companies to meet regulatory standards and payer expectations more efficiently. The suite includes pre-configured modules for patient recruitment, eligibility screening, enrollment, data capture, and participant engagement. This holistic approach enables sponsors to gain invaluable insights into drug efficacy in real-world scenarios, while also expanding access to global patient populations.
