Leading players in the global modacrylic fiber market analyzed in the research include Aksa Akrilik Kimya Sanayii A.S., Zhangjiagang Hengfeng Textile Company Limited, China National Petroleum Corporation, ChinaTexNet.com, Toray Industries, Inc., Formosa Chemicals & Fiber Corporation, Grupo Kaltex, GT, Japan Chemical Fibers Association, TenCate Protective Fabrics, Kaneka Corporation, TAEKWANG Industrial Co. Ltd., Shanghai Changjie Textile Company Limited, Xinke Special Textile Co., Ltd., and Zhejiang Wangzhuo Knitting Co., Ltd.

The report evaluates these major participants in the global modacrylic fiber industry. These

participants have executed a slew of key business strategies such as the expansion of regional and customer base, product development, strategic collaborations, and joint ventures for expanding product widths in the global markets. The market research report supports the performance monitoring of each segment, positioning of each product in respective segments, and the impact of new technology and product launches on the overall market size.□

Covid-19 Scenario

The COVID-19 pandemic adversely impacted the expansion of the global modacrylic fiber market, due to disruptions in supply chain activities across the globe.

Shutdown of various manufacturing units across the globe for the elongated period during the COVID-19 pandemic led to low production of modacrylic fibers, thereby hindering the global market growth.
