"We are so pumped to launch the third in-person season of wheelchair football competitions, with the league now growing to 14 teams in 2023," said Move United Executive Director Glenn Merry. "This program, supported through the NFL-BWF Salute to Service partnership brings the hard hitting sport to hundreds of warfighters and adults with disabilities in their home communities. The power of the league is to reengage our athletes in the unique team environment that only football brings."

In addition to supporting the USAWFL's competitive teams, the grant from the NFL-BWF Salute to Service partnership

and Move United provides opportunities for grassroots growth of the sport through coaching education, officials training and learn-to-play clinics.

As a signature program of Greater Buffalo Adaptive Sports, Greater Buffalo Adaptive Sports was formed to provide adults and children with physical, developmental, and intellectual disabilities with the opportunity to participate in sports, make friends, and grow. Now, we offer a variety of programs, and are always looking to expand and to serve a new group of athletes.

Local youth football organizations, nonprofits and community groups are invited to come out to a game to support the athletes and teams as spectators or volunteers.
